dev

Professional Summary

Motivated and detail-oriented **Computer Science graduate** with hands-on experience in **Java, JDBC, SQL,javascript,Node.js,c#**. Skilled in developing database-driven applications, implementing secure **JWT-based authentication**, and building user-focused web solutions. Strong understanding of **OOP, REST APIs, and full-stack development**, with a passion for learning new technologies and solving real-world problems.

WORK EXPERIENCE

SunBeam Infotech Pune **12/2025 - 01/2026**
Full-Stack Web Development Internship

- Developed **RESTful APIs using Node.js and Express.js**, tested and validated endpoints using **Postman**, and built responsive front-end interfaces using **React.js**.

Intern

EDUCATION

B.Tech in Computer Science & Engineering-AIML
D.K.T.E. Society's Textile & Engineering Institute, Ichalkaranji • Ichalkaranji •
GPA: 7.89 / 10.00 11/2023 - Present

HSC
Sangli • GPA: 60.00 / 100 01/2022

SSC
Sangli • GPA: 84.60/ 100 01/2020

CERTIFICATIONS

Metamorphosis 2k25, Walchand linux User's Group,(DevOps, Docker(Basics) and Kubernetes.)

Sunbeam Infotech , Pune training

PROJECTS

Student Course Registration System

- Developed a full-stack student course registration platform using the **MERN stack**, enabling students to browse, register, and manage courses through a responsive web interface.
- Implemented **role-based authentication and authorization using JWT**, securing student and admin access and protecting sensitive application data.

Banking System Online App

- Developed a console-based banking system to perform core operations including **balance inquiry, cash withdrawal, cash deposit, and mini statement generation**.
- Implemented **JDBC** for database connectivity and efficient storage, retrieval, and management of customer account and transaction data.
- Integrated **transaction validation and exception handling** to ensure accurate and reliable banking operations.

- Applied **Java OOP concepts** and SQL queries to build a structured and maintainable application.

Webseries App

- Developed a **full-stack web series platform** using the **MERN Stack**, integrating frontend, backend, and database functionalities.
- Implemented **JWT-based role authentication and authorization** to ensure secure user access and data privacy.

Tourist Safety Ai Assistant app

- Built a location-based platform that displays **safety scores** and recommends nearby attractions.
- Developed an **Emergency SOS feature** to quickly access nearby police stations and hospitals.
- Implemented **JWT-based role authentication and authorization** to secure user access and data.
- Developed the project during a **MERN Stack internship**, gaining hands-on full-stack development experience.

SKILLS

Technical: Backend(Node js,Express), C#, C/C++, CSS, HTML, Java, JavaScript, .NET, Python, React

Databases: SQL (MySQL, Oracle SQL)

Frameworks: Express

Core Concepts: Database Management Systems, Data Structures and Algorithms (DSA), Java, Object-Oriented Programming (OOP)

Professional Skills: Adaptability, Communication, Presentation, Teamwork
